

Drug and Alcohol Counseling Specialization **Graduate School**

Required Number of Hours: 15

Description of certificate: (Include an introductory paragraph and certificate plan of study.) This certificate is designed to meet the needs of the community and region for additional counseling certification. This certificate will qualify an individual as a drug and alcohol abuse counselor. The coursework for this certification is interwoven in the clinical mental health program, thus providing additional training for individuals already enrolled in the program and additional training for those counselors interested in this specialization. This certification will be the only one offered in the state of Arkansas.

CED 6833 Addiction and Co-Occurring Disorders
CED 6843 Diversity and Addictions
CED 6853 Addiction and the Family
CED 6863 Seminar in Addiction Studies: Special Populations
CED 6583 Counseling and Substance Abuse

Student Learning Outcomes:

As licensed addiction practitioners, this certification will allow individuals to work with clients with addiction related issues in counseling populations in varied settings.
